CSC240 - Homework #1
Due Wednesday, August 26

[This homework is mostly for attendance purposes...
but it is also to get a sense of what tools you are using,
and to encourage you to make that decision
if you haven't done it yet. Don't get the wrong
impression. Future homework assignments will
require more work.]

(1) What C++ programming environment will you
use for your programming assignments?

(2) Have you downloaded Racket yet?
